- Troubleshooted and documented custom modules.
- Refactored legacy codebases following clean code principles.

Developer profiles

Drupal.org

My Drupal.org profile is the home of all my Drupal related open source work. I've developed new features, bug fixes and tests for Drupal core, the Lightning distribution and various Drupal modules.

GitHub

I like experimenting with different technologies. My GitHub profile accommodates my hobby projects, school assignments and contributions to different open source projects.

Certifications

Zend Certified Engineer - PHP 7.1

I am the first Hungarian person to pass the PHP 7.1 exam. My monthslong preparation inspired a series of blog posts on the topics I found the most interesting.

Acquia Certified Developer - Drupal 8

The Acquia exam is about applying best practices to real world scenarios. With several D8 projects under my belt, I passed the test with flying colors.

Languages

- English - full professional proficiency - TELC English C1 (2017)
- Hungarian - native proficiency

Education

- ELTE (2017 – Present) - Computer Science BSc (evening course)
- Petrik Lajos Bilingual Vocational School of Information Technology (2014 - 2016) - diploma in software development (54-213-05)
